Title: Seine Boats

Date: 1899-1956

Primary Maker: com.gallerysystems.emuseum.core.entities.RecordXPerson@3dd5f

Medium: Watercolor and gouache on paper

Description: Painted largely in a brown monochromatic palette, the reds, blues, and whites of the men's clothing are what boldly stand out in "Seine Boats". These accents are the only details that individualize one worker from the other. Though the entire scene is outlined thickly in black which gives the image a defined appearance, the anonymous figures are merely representative of Beal's idea of the general working class.
